Subject to change in price and/or availability. Corporate securities are taxable unless otherwise indicated. Value of security may be more or less than original investment if sold prior to maturity. Ratings are subject to change. Bonds below investment grade or non-rated bonds generally carry a higher rate of return as compensation for the risk associated with investing. This includes market risk, restructuring risk or default risk of the borrower. We urge investors to discuss these risks with their representative. Discount bonds may be subject to capital gains tax. Insurance on securities does not eliminate market risk. Puttable bonds are an option to put the bond back to the issuing authority to receive Par amount at the Puttable date. \*Yields illustrated represent yield to maturity unless indicated otherwise.
